

Project Descriptions / Visuals

The Energy Coalition – (TEC) is a nonprofit focused on transforming energy use and inspiring responsible energy actions and educational efforts.

Role: Education and outreach events

Partner: Merced County of Education and University of Merced.

PEAK @ Home - is an energy based STEM lesson that provides education lessons and resources to educators.

- PEAK@HOME
- Public Events and Outreach
- Field educator programs
- Creating new ways to have college students teach K-8th audiences.

Merced County of Education:

Building new relationships with school districts to promote energy efficiency projects to present to students and teachers.

- Merced County School
- Merced City Schools

Achievements

Project Benefits

Milestones:

- 4 weeks of PEAK@Home lessons
- STEM hero webinars
- Partnering with UC Merced to expand PEAK Program

Challenges:

- School sites closed for the remainder of the year
- Limited school site visits and social distancing

Next Steps / Key Outcomes

Additional Information

a. Next Steps:

- Expand PEAK with school districts in Merced County
- Continue field education with UC Merced & local communities

b. Key Takeaways:

- Positive thinking leads to positive outcome

c. Results:

- Developing new professional skills and relationship to expand programs in my local community
